

elvia PCB obtains PRI NAD-CAP accreditation

Dear Customer,

elvia PCB group, the French leader in high technology printed circuit board manufacture, is pleased to announce that its facility based in Coutances, Normandy, has obtained the PRI NAD-CAP accreditation.

The elvia PCB team is particularly pleased with this new achievement in quality management.

elvia PCB already possesses the ISO 9001, ISO 14001 and EN 9100 certifications, so PRI NAD-CAP accreditation is further confirmation of the ongoing commitment to quality within the group.

I would like to congratulate all of the employees who have worked hard for the continuous improvement of quality processes. I would furthermore like to express my thanks to our customers for their contributions of both time and advice.

35% of the group's activities are in the aeronautical and military sectors. With a turnover of 53 M€ in 2007, elvia PCB group thus confirms its position as European market leader in these sectors.

Kind regards,

Bruno CASSIN
President of elvia PCB group
